<p>1) Spending the night in Mumbai on the return is optional – since flights leave near or after midnight – the faculty could leave the same day that they arrive back in Mumbai if they so choose.</p> <p>2) These dates may vary a bit depending on your airline and flight timing. Even though the flight may leave after midnight, which technically is the next day, we have still listed the date as the departure or arrival date for convenience’s sake.</p>
